ROLLY NRG 11

M33 BC 20 AH

BATTERY CHARGER 24V 5A,
CASE BATTERIES LITHIUM
24V 560 WH

Combined brush head/squeegee system:
cylindrical brush with three down pressure
levels (by knob), twin squeegee with alternating
suction system (patented).

EASY MEANS...

...YOU CAN GO AND WORK WHEREVER YOU WANT

Compact and reactive, Rolly NRG perfectly works in every environment. Its dimensions, combined with the new handle with unlocking system, guarantee the best cleaning results, even in congested areas and in narrow spaces. The swivel wheels assure the max manoeuvrability.

...USER FRIENDLY

Intuitive control panel. Machine easy to set up... everything always under control. "Coloured" parts levers, knobs, ...clearly indicate where the user can "put the hands" preparing the machine for work or while using it.

... EASY TO FILL AND DRAIN

Solution tank: easy to transport and fill (under sink, tap ...). Practical cover with percentage graduation for chemical dosage. Recovery tank: foldable and removable, thanks to its click-clack system it perfectly seals the recovery tank, so avoiding any water leaking effect either in transport or while working. The tank can be easily transported and drained like a bucket.

...EFFORTLESS MAINTENANCE

Immediate brush click on/off system (by button). Sliding brush deck. Squeegee blades simple to install/remove.

...ROLLY NRG HOSTS IN A COMPLETE COMFORT THE LITHIUM BATTERIES: THE POWER IN A CASE

Nothing to extract, remove, prepare for the batteries location. They stay inside a practical case which can be promptly inserted in the back of the machine.

... EASY TO TRANSPORT, PARK, STORE

Rolly NRG is really small and above all light (only 23 kg). When it is not in action it can be moved, parked or stored everywhere without any effort

... MANY ACCESORIES, TO MATCH EVERY SPECIAL NEED

The standard equipment of all the Rolly NRG variants is really rich. In addition there is a wide range of accessories (batteries, charger, brushes, pads,...) to wear Rolly NRG in the best way in every situation

A UNIQUE MIX OF DISTINCTIVE SOLUTIONS MAKES ROLLY NRG THE PERFECT COMPACT SCRUBBER DRYER

WHERE NO ONE ARRIVES

COMFORT IN NARROW SPACES

SO TINY! All the Rolly NRG machines (above all Rolly NRG 7 ½) are extremely compact, so ideal for narrow spaces, where no other scrubber dryer can go and work.

A SPECIAL HANDLE, ergonomic, foldable for the best comfort ... but above all unlockable (patented). Just one click on the front lever and the handle frees itself. This allows Rolly NRG to go and work under tables, chairs... wherever you need her!

BIG POWER IN A SMALL CASE

DURABILITY, RELIABILITY, RUNNING TIME, LIGHTNESS... ALL IN A SIMPLE CASE!

Rolly NRG is a really amazing scrubber dryer, hosting the last generation powerful batteries inside a case! Thanks to this it can work for a long time without any stress in any kind of environment.

DURABILITY: lithium batteries really last for more than 1000 life cycles. Unbeatable long time investment!

RELIABILITY: batteries not affected by plug in/out; the operator can recharge them whenever and how long he wants (even partially) w/o any risk of damage...more than 1h running time with the 10Ah batteries, the double with the 20Ah ones.

LIGHTNESS: only 2,4 kg (10 Ah) and 3,6 kg (20 Ah) contained in a practical case, easy to be transported and installed by everybody.

SIMPLE AND FAST

PEERLESS PERFORMANCE

Brush head and squeegee system, combined together, perfectly optimize cleaning and drying performance, with amazing results, so making Rolly NRG the ideal solution for small or crowded cleaning areas.

Top cleaning effects: the cylindrical brush deck assure the best cleaning performance on every kind of floors, in the uneven ones or the ones with relevant (grout lines included), adjustable down pressure by knob... against every kind of dirt.

An unbelievable squeegee system! Alternate twin squeegee system: for sure one of the main innovations. How it works is incredibly simple: working frontward the front squeegee immediately closes and the rear one can work more efficiently, going backward exactly the opposite. The results are immediately and clearly visible: top drying results and optimized consumptions at the same time.

Retractable squeegee arms: both the arms go inside the brush head when hitting obstacles (coming out again when the obstacle has been passed); for the maximum reliability and agility when working.

Incredibly quiet: as soon as you push the silent mode function on the control panel Rolly NRG becomes immediately more quiet (54 dbA). Ideal for day cleaning and in all the environments (hospitals, rest homes,...) where silence is a "must".

USER FRIENDLY

A START AND GO MACHINE

Intuitive control panel: all the main working functions can be selected and managed directly by the control board, three buttons and three leds to have the situation always under control. **One Touch Button**, to activate all the Rolly's functions together by default. So Rolly NRG is a start and go machine, immediately ready for use (no trainings required).

TECHNICAL DATA & ACCESSORIES

STANDARD ACCESSORIES

**POLYPROPYLENE
CYLINDRICAL BLUE
BRUSH**
cod. 40.5000.00

**SET FRONT/REAR

TO PREVIOUS MODELS***

**IT IS POSSIBLE TO USE
WATER AT 50 °C**

**MAXIMUM PROTECTION
AGAINST WATER,
IT IS IDEALLY SUITED
FOR USE IN DAMP
ENVIRONMENTS**

**A NEW AND WIDE RANGE OF
PADS, SUITABLE FOR ALL NEEDS**

WHITE CYLINDRICAL PAD
Cylindrical pad suitable
for the polishing of coated
floors.
cod. 40.5000.11

RED CYLINDRICAL PAD
Cylindrical pad suitable
for regular maintenance;
cleaning sign removal.
cod. 40.5000.12

GREEN CYLINDRICAL PAD
Cylindrical pad suitable for
partial wet stripping of not
coated hard surfaces, for
preparing hard surfaces
before new coating and for
stripping of linoleum and
vinyl surfaces.
cod. 40.5000.13

BLACK CYLINDRICAL PAD
Cylindrical pad suitable for
the total wet stripping of
hard surfaces with chemical
stripping agents. Also
suitable for heavy cleaning
tasks on cement and
industrial floors.
cod. 40.5000.14

**MICROFIBER
CYLINDRICAL PAD**
Cylindrical pad suitable
for structured surfaces
(microporous), or delicate
ones (wood and parquet).
Surfaces treated
with wax wood.
cod. 40.5000.04

**MELAMINE
CYLINDRICAL PAD**
Cylindrical pad suitable for
cleaning microporous gres
stoneware floors only with
water, without chemical.
It removes all black marks
from floors with minimal
abrasive action. It reduces
cleaning times and costs.
cod. 40.5000.10

*the use of chemical products with a pH 1 to pH 14, concentration at 10% dilution is permitted.
Before use we strongly recommended to consult the technical data sheet of the chemical products.
