Professional Cleaning Machines Since 1968

SANIPRO 20.12 A P

THE PROFESSIONAL MACHINE SPECIFICALLY DESIGNED BY GHIBLI & WIRBEL FOR SANITIZING INDOOR ENVIRONMENTS AND SURFACES. SANIPRO 20.12 A P ALLOWS TO MAINTAIN OFFICES, SCHOOLS, CANTEENS, SHOPS, CAFÉS AND RESTAURANTS CONSTANTLY SANITIZED WITH A SINGLE EASY OPERATION!

SANIPRO 20.12 A P

Ghibli & Wirbel, in order to meet the ever growing need of cleaning and sanitizing environments, has created a professional machine capable of sanitizing indoor environments such as offices, schools, canteens, hotels, bars and restaurants: SaniPro 20.12 A P. This small sanitizing machine, compact and easy to transport, is equipped with a practical dispensing lance that allows to quickly and easily spread the sprayed solution on the surfaces, without the need to dry it. An extremely versatile professional machine thanks to the three interchangeable nozzles, available in the standard equipment of the machine, which have different dimensions to change the type of spray according to the application needs. The wide variety of chemicals that can be used, the possibility of working continuously for two hours and the coverage of a large working area make SaniPro the ideal machine for maintaining environments constantly sanitized with a single operation, in a professional way.

SANITIZATION AND DISINFECTION

Surface cleaning, carried out accurately using professional machines and sanitizing products, is fundamental to remove dirt and necessary for proper sanitization and disinfection. These procedures, in fact, allow to eliminate pathogens, such as viruses and bacteria, on the different surfaces and prevent their proliferation in the environments.

PRODUCT IDENTIFICATION

TYPE	REF. NO.
SANIPRO 20.12 A P	16801210001

TECHNICAL DATA

Voltage - Frequency	220-240 V~	50/60 Hz
Rated power (nominal power)	W	25
Max.pressure	bar	20
Solution tank capacity	l	12
Sound level	db(A)	58
IP code		IPX4
Power supply cable	m	15
Maximum length of the extendable spiral hose	m	7,5
Weight (without accessories)	Kg	9,3
Dimensions	mm	760x390x900

STURDY METAL TROLLEY

Allows an agile movement of the machine.
Equipped with a large basket holder for the dispensing lance and other accessories.

GOTEC PUMP

20 bar operating pressure. It allows the operator to work continuously and to use a wide variety of chemicals thanks to its resistant seals (*).

TANK WITH GRADUATED SCALE

The operator adds the cleaning solution directly into the tank, filling it in a practical and rapid way.

TOP QUALITY EQUIPMENT

- Extendable spiral hose, which can reach a length of 7.5 m.
- Dispensing lance, 50 cm long to reach the most difficult areas.
- Possibility of transforming the lance into a dispensing gun quickly and easily screwing the nozzle directly onto the handle

INTERCHANGEABLE NOZZLES

to change the type of spray according to the application needs.

IMMEDIATE SANITIZATION

The disinfectant solution is sprayed on the surfaces in a fast and easy way, without the need to dry it. Ideal for sanitizing indoor environments such as offices, schools, canteens, hotels, bars and restaurants.

STANDARD ACCESSORIES

TYPE	FLOW RATE [ML/MIN]	PRODUCT CONSUMPTION [L/H]	RUNNING TIME (MIN)	REF. NO.
Extendable spiral hose + Spray lance with grey nozzle already installed				6493000
Grey nozzle	105	6,3	120	2519005
Green nozzle	160	9,6	75	2519006
Orange nozzle	200	12	60	2519007

*Before use we strongly recommended to consult the technical data sheet of the chemical products.
